SUMMARY

Full Stack Web Developer with hands-on experience shipping production apps for real clients — from government websites to AI-powered event management systems. Currently pursuing a BS in Information Technology (Major in Business Analytics) at Batangas State University TNEU - ARASOF Nasugbu while building tools that solve tangible problems.

EDUCATION

Bachelor of Science in Information Technology with Honors **Aug 2023 - Jul 2027**
Batangas State University TNEU - ARASOF Nasugbu

- Major in Business Analytics
- Thesis on "iCARE++: A Scalable Machine Learning-Driven Clinical Competency Assessment and Adaptive Learning System for Nursing Students".

Diploma in Science, Technology, Engineering and Mathematics **Jun 2021 - Jul 2023**
Balayan Senior High School

- Relevant coursework in developing software applications.
- Developed a Registrar Management System using Visual Basic for managing student registrations.

WORK EXPERIENCE

C2LK Internet Solutions **Aug 2024 - Present**

- Engineered and shipped full-stack web applications for clients across 5+ projects, from requirements gathering through production deployment.
- Led UI/UX design planning for client-facing apps, reducing user navigation friction and consistently earning client approval on first review.
- Hardened apps pre-deployment by implementing input validation, HTTPS enforcement, and auth controls, resulting in zero reported security incidents.
- Standardized development tooling (Git workflows, linters, CI scripts) cutting average build-to-deploy time by ~30%.
- Migrated development environment to Linux, increasing personal workflow speed and enabling containerized local dev setups.

McDonald's Crew **Nov 2023 - Mar 2024**

- Onboarded customers to a newly deployed self-service kiosk system, cutting average order time and reducing queue length during peak hours.
- Prioritized the customer experience at every step of food preparation, maintaining quality and safety standards that directly contributed to repeat visits and positive feedback.
- Coordinated with a team of 8–12 crew members during high-volume shifts to maintain consistent food quality and throughput.

PLDT Sales Agent **Jan 2020 - Dec 2022**

- Resolved customer connectivity issues and service arrangements, managing a high volume of daily inquiries across a 3-year tenure.
- Processed and validated customer application data with high accuracy, reducing processing errors and speeding up service delivery turnaround.
- Collaborated with clients, leading to a 25% increase in customer satisfaction due to fast service.

CERTIFICATES

Information Technology Specialist

- Data Analytics
- Databases
- Device Configuration and Manage

Microsoft

- Microsoft Office Specialist

CISCO Networking Academy

- AI Fundamentals with IBM SkillsBuild
- Apply AI: Analyze Customer Reviews
- CCNA: Switching, Routing, and Wireless Essentials
- Data Analytics Essentials
- English for IT 1&2
- Introduction to Data Science
- Introduction to Modern AI
- Introduction to Packet Tracer

Soft Skills	Technical Skills			
• Problem Solver • Team Leader • Data Analysis • Communication • Attention to Detail	• Frontend ◦ React ◦ Javascript ◦ Typescript ◦ Next.js ◦ TailwindCSS	• Backend ◦ C++ ◦ Java ◦ PHP ◦ Python	• Tools ◦ Git ◦ Neovim ◦ Node.js ◦ Opendcode ◦ Tmux	• Databases ◦ PostgreSQL ◦ MySQL ◦ Supabase

PROJECTS

iCARE++ Web and Mobile App (Work in Progress) www.icare-bsit-ba.vercel.app • Successor of a previous system with new AI features along with scalability for other institutions. • Building apps through React Native for Android and IOS flexibility.	May 2026 - Present
Transglobal Movers Website www.transglobalmovers.com • Redesigned a legacy corporate website with a modern UI and improved UX, reducing bounce-prone navigation paths and integrating reCAPTCHA for spam-free quote submissions.	Jan 2026 - May 2026
Tuy Government Website www.tuybatangas.gov.ph • Built a custom CMS for a municipal government site, enabling non-technical staff to manage content and downloadable forms without developer intervention.	Dec 2025 - Mar 2026
Gatherly Event Management System www.gather-ly.app • Developed a RAG-powered AI chatbot for event planning using real-time database context, with end-to-end encrypted chat and Google Maps API routing for guests.	Sep 2025 - May 2026
Bro's Cafe POS and Inventory Management System www.broscafe.store • Built a full-featured POS and inventory system processing real transactions via Paymongo API, with automated stock-level alerts to eliminate manual tracking.	Sep 2025 - Dec 2025
